# Goëmar® Calibra

## CROP RECOMMENDATIONS

Recommended application rates for FOLIAR APPLICATION

Crop	Rate/Ha	No. of applications	Time of application
Vegetables	1 - 2 L	3	- repeat at 10-14 day intervals when there is adequate leaf cover to intercept the spray (e.g. 4 to 6 leaf stage) - avoid applications during flowering
Fruit trees	1 - 2 L	3 - 5	- 10 to 15 days pre-flowering
Vines	1 - 2 L	3 - 5	- 10 to 15 days after petal fall and repeat at 10 to 15 day intervals

### Directions for use :

- shake well before use
- pour Goëmar® CALIBRA last in the tank

### Tank mixing and precautions :

Goëmar® CALIBRA is compatible with most usual fungicides and insecticides, but it is not recommended to be mixed with herbicides.

### Storage :

Store the product in normal conditions

### Conditions of sales - limited warranty and limitations of liability :

GOEMAR warrants that the product within the unopened container conforms to the chemical description on this label. The directions on this label must be followed carefully and are based on tests, believed to be reliable.

As the occurrence of unusual weather or soil conditions, and the use of this product, are all beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such use or the results obtained, and in no event shall the liability of GOEMAR exceed the price of the product used. The purchaser must assume all risks of storage, use or application of this product. Goods are sold subject to the standard Conditions of Sale of the manufacturer, available on request. Use of this product implies that the purchaser accepts these Conditions of Sale.

**P102 : Keep out of the reach of children.**
