

# YaraMila<sup>®</sup>

## 8-11-20

YaraMila 8-11-20			
Total Nitrogen (N)	8.0%	Sulphur (S)	2.8%
Nitrate Nitrogen (NO <sub>3</sub> )	1.0%	Boron (B)	0.01%
Ammonium Nitrogen (NH <sub>4</sub> )	7.0%	Iron (Fe)	0.1%
Total Phosphorus (P)	10.5%	Zinc (Zn)	0.01%
Soluble Phosphorus	9.4%	Copper (Cu)	0.01%
Total Potassium (K)	20.0%	Manganese (Mn)	0.01%

### Completeness

Every granule of YaraMila contains total N, P, K nutrition. The YaraMila products also contains sulfur and micronutrients.

### Balanced source of nitrogen

YaraMila products include a balance of nitrate and ammonium nitrogen, making the products significantly more effective than urea of ammonium based fertilizers per unit of nitrogen.

### Soluble phosphate

YaraMila products contain highly soluble phosphorus giving availability to crops over a wide range of soil types.

### Superior handling

The YaraMila granule is specifically designed to allow easy and accurate spreading by machine or hand.

### Better than blends

With blends segregation can occur during transport, handling and application leading to large variation in the required application rate of each nutrient. YaraMila products have every nutrient in every granule avoiding any segregation issues.

### Benefits

- *Balanced nutrition in every granule*
- *Balanced nitrogen source*
- *Soluble phosphate*
- *Rapid nutrient release*
- *Excellent handling and spreading characteristics*
- *Low dust in handling*
- *No segregation during handling*
- *Proven quality*
