

KRISTA™ MgS

KRISTA MgS			
Magnesium (Mg)	9.6%	Solubility (20°C)	710 - 750 g/l water
Sulphate (S)	13.0%	EC (1g/l at 25°)	0.7 mS/cm
		pH (1% solution)	6.6

Magnesium essential for

Cation balance: high potassium levels in the plant or soil will reduce the efficiency of magnesium, reducing crop yields and quality. Other cations such as ammonium, calcium, hydrogen (low pH) and aluminium can also reduce the availability of magnesium.

Photosynthesis: magnesium is a major component of chlorophyll, which is essential for photosynthesis.

Compatibility

KRISTA MgS can be mixed with all water soluble fertilizers except soluble calcium fertilizers.

High purity

KRISTA MgS is free of chlorine, sodium and heavy metals.

Benefits

- Fully water soluble sulphur and magnesium fertilizer.
- Free flowing, fine crystalline powder which dissolves quickly in water without any residues.
- Suited to application through all fertigation systems: hydroponics, drip systems, low throw sprinklers, centre pivots and spray units.
