

YaraVita™

Croplift-K™

A formulated multi-nutrient product for foliar application

Nitrogen	5.0 %		
Phosphorus	4.4 %		
Potassium	29.0 %		
Sulphur (S)	4.0 %	Boron (B)	0.04 %
Magnesium (Mg)	1.2 %	Zinc (Zn)	0.14 %
Manganese	0.26 %	Iron (Fe)	0.02 %
Copper (Cu)	0.2 %	Molybdenum (Mo)	0.006 %

Why Foliar Apply?

Foliar sprays ensure precise application of the right nutrient mix at the right time, and can be specifically targeted to the leaf or fruit, to suit an immediate crop need.

Foliar application also provides nutrients for immediate uptake by the leaves or fruits. As a result, the grower is not reliant on the right soil, pH or growing media conditions and can quickly put the crop back on course.

Crop Focus

Kiwi-K is a crop specific product formulated for the kiwi crop. A combination of important nutrients based on the needs of kiwifruit at key timings has been developed with YaraVita formulation expertise.

This coupled to the Yara's application competence allows the safe application of a high quality material.

The information provided is accurate to the best of Yara's knowledge and belief. Any recommendations are meant as a guide and must be adapted to suit local conditions.
