

# YaraVita™

## Croplift™

### A multi-nutrient product for foliar application

Nitrogen	20.0%		
Phosphorus	3.5 %		
Potassium	11.6%		
Sulphur (S)	5.0%	Boron (B)	0.04 %
Magnesium (Mg)	1.2%	Zinc (Zn)	0.14 %
Manganese	0.26 %	Iron (Fe)	0.02 %
Copper (Cu)	0.2%	Molybdenum (Mo)	0.006 %

### Why Foliar Apply?

Foliar sprays ensure precise application of the right nutrient mix at the right time, and can be specifically targeted to the leaf or fruit, to suit an immediate crop need.

Foliar application also provides nutrients for immediate uptake by the leaves or fruits. As a result, the grower is not reliant on the right soil, pH or growing media conditions and can quickly put the crop back on course.

### Formulated Multinutrients

Formulated for safe application at critical growth stages to satisfy crop requirements, Croplift is suitable for most crops during times of stress or high biomass production. Through formulation this brings together a full range of essential plant nutrients in a single, high quality product that is safe and easy to use.

The information provided is accurate to the best of Yara's knowledge and belief. Any recommendations are meant as a guide and must be adapted to suit local conditions.

### Benefits

- Formulated for safe application at critical growth stages to satisfy crop requirements
- Widely tank mixable with other crop sprays.  
Visit [www.tankmix.com](http://www.tankmix.com) for details
- Proven, reliable performance  
Trialled and tested on a wide range of crops around the world
- High quality, consistent products.  
Manufactured to ISO 9001 quality assurance standards
